

Orts GmbH Maschinenfabrik

Schwartauer Straße 99
Sereetz, Schleswig- Holstein 23611
Deutschland

Telefon: +49 (0)451 398850

The company was founded in 1972 as an engineer of ce and consulting company, specialised in constructions of grabs (main business) and nearly all kind of bulk handling equipment. In the beginning was only construction and sales. The manufacturing of all appliances took place at well known companies in Northern Germany. In 1985 an own workshop was founded near Luebeck / Northern Germany and since that time the company is named ORTS GmbH Maschinenfabrik. Main customers are shipping companies, where the grabs has to stand the rough conditions on sea- going vessels, charging and discharging the vessel in every corner of the world. But also harbour and port authorities, stevedoring companies and other companies which have to move or handle "something". ORTS has evolved over the years as a global well known grabmaker and is your reliable partner for loading and unloading. The range of products is: electro- hydraulic grabsfully radio controlled diesel- hydraulic grabsmechanical rope grabs (single rope, 2-rope, 3-rope, 4-rope system)wood- grabs (for wood- bundles or wood- logs)dredger grabssalvage grabsAdditional: crane equipment for operating electro- hydraulic grabscargo-turners / turn tablesheavy- lift beamsflat- traverse- frames
